

Amanda Hatherly

Amanda Hatherly is the Director for the Center of Excellence for Green Building and Energy Efficiency and New Mexico EnergySmart Academy at Santa Fe Community College. She teaches courses from the Building Performance Institute, the Residential Energy Services Network (RESNET) and the National Center for Healthy Housing and is the Principle Investigator for a National Science Foundation grant developing serious games related to building science. She also teaches a graduate course on Environmental Health for Boston Architecture College.

Amanda is a member of numerous boards within New Mexico and nationally related to energy efficiency, health and sustainability. She is also on the National Center for Healthy Housing Curriculum Committee and the Sustainable Santa Fe Commission. Amanda is regularly invited to speak about energy efficiency, green building and healthy homes issues around the country including the MIT Women in Clean Energy Symposium. She has a graduate degree in Educational Technology focusing on adult online course design.
