

## **Darren Port**

Darren is charged with developing and implementing policy strategies for the advancement of the Northeast regions adoption of, and compliance with, progressive building energy codes. Additionally, Darren advocates for policies to rate and disclose building energy performance.

Prior to joining NEEP, Darren was the Green Building Administrator and Green Code Specialist for the State of New Jersey. Nationally, he serves as an appointed member on several code and standards making committees including, the International Green Construction Code (IGCC) and ASHRAE 189.1.
